

NEW POLICIES PROCEDURES

As always, our practice takes your safety very seriously. We provide HEPPA filtration throughout our office and taking additional cleaning and sanitizing measures to provide you a protected and secure experience.

1 CALL OUR OFFICE

Patients should remain in their cars when arriving to the office. Please call our office when you arrive to alert us that you are here.

2 SCREENING QUESTIONS

Patients will be greeted by a designated team member who will ask screening questions. Patients under 18 will need a parent to sign a consent form to be treated.

3 TEMPERATURE CHECK

Patients' temperatures will be taken inside. Patients with a temperature of 100.4 degrees or less will be escorted to their operatory.

4 INSULIN MONITOR

Cherry Orthodontics team members will be wearing proper PPE that is necessary for the appointment including disposable gowns and face shields.

5 SOCIAL DISTANCING

Social distancing will be maintained as much as possible.

6 ESCORTED OUT OF THE OFFICE

When the procedure is completed, patients will be escorted out.

7 CALL TO SCHEDULE NEXT APPT

We ask parents or patients to call to schedule the next appointment.

STAY SAFE, STAY HEALTHY.

We understand this is far from our "normal" way of treating patients but we ask you to please bear with us as we navigate this new way of providing orthodontic care. We will work together to come through these circumstances better than before. We appreciate your patience and loyalty during these most uncertain times.

Stay safe, stay healthy.
Dr Cherry and the Cherry Orthodontics Team
